Pool Maintenance Ltd transformed our school swimming pool, which had been out of use for a number of years, into a stunning and professional facility that everyone has been keen to use.

The team responded well to our requirements and worked hard to ensure that the pool was fit for purpose. They delivered sufficient changing facilities, maximised the existing space and took into account the cost efficiency required to run a school pool effectively.

The pool is now in regular use – both by our students, other local schools and wider community groups – and really has become an asset for our local area.

We have had some fantastic feedback since redeveloping the pool and are pleased to be able to expand the sporting and extracurricular opportunities we offer students through these excellent new facilities.
